

eZi-View

DSP SERIES

**POWERFUL EDGE VISUALISATION.
MADE EASY.**

eZi-View DSP series delivers high-performance display solutions for your edge controller using Modbus RTU. Our architecture enables fast, intuitive visualization and control at the edge.

Engineered around a thin, efficient hardware platform, eZi-View delivers sophisticated visualisation, intuitive control, and a modern user experience while keeping system costs low.

STEP 1 SELECT YOUR VISUALISATION PLATFORM

HARDWARE DISPLAYS

DSP-1

3.5" Touch Display

Compact room interface for FCUs, room control, small equipment and OEM applications.

DSP-2

4.3" Touch Display

Advanced operator display for equipment monitoring, HVAC systems and machine interfaces.

DSP-3

7" Touch Display

Premium visualisation platform for plant control, AHUs, BMS and industrial applications.

DESKTOP APPLICATION

OR

eZi-View-APP-W

Windows Desktop Application

Run eZi-View projects directly on a Windows-based PC, workstation or server.

- Supervisory Displays
- Building Management Systems
- Plant Monitoring
- Control Rooms
- SCADA-style Applications
- Multi-screen Deployment
